## Why Fenchurch Law?

Fenchurch Law is a leading international law firm dedicated to serving the needs of policyholders. Ranked in Tier 1 by both Legal 500 and Chambers & Partners, we focus exclusively on representing policyholders in insurance coverage claims, specialising in high value and complex disputes.

## Specialist expertise

The firm covers all areas of commercial insurance including construction, energy, financial institutions, hospitality, manufacturing, marine, professional services, and property.

Our partners have spent their entire careers specialising in insurance disputes and have experience across all sides of the insurance market, with many having previously represented insurers before focusing exclusively on representing policyholders.

The firm works closely with insurance brokers, combining its legal skills with leverage that insurance brokers are best placed to provide, with the objective of achieving the best possible outcomes for clients. Fenchurch Law's clients include global multinationals, businesses of all sizes across all sectors, and high net worth individuals.

*"We set up Fenchurch Law in 2010 to meet the growing demand for specialist insurance advice exclusively for brokers and policyholders. At the heart of our business lies our determination to develop innovative ways to help our clients, and to resolve complex problems simply and effectively."*

**David Pryce, Senior Partner, Fenchurch Law**

## Always aspiring – our awards

For Fenchurch Law, awards are not an end in themselves but rather a validation of our purpose and passion – and most importantly, the results our talented and specialist insurance dispute lawyers achieve for our clients.

We are top ranked in both Chambers and the Legal 500, and have been recognised by The Times as one of the UK's Best Law Firms. We were the first insurance firm to be named Boutique Firm of the Year at The Lawyer Awards, and have twice been named Insurance Law Firm of the Year.

*"Fenchurch Law is an astonishingly strong team. Each member is exceptional, from the senior partners all the way to the new starters. They are excellent lawyers, they really know their insurance law, and they fight hard for their clients. They are the Go-To firm for big policyholder disputes. As good as it gets."*

**Legal 500**

*"Dedicated focus on acting for policyholders and insurance brokers in complex disputes, often with international aspects. Regularly handles high-value mandates relating to property and construction, including substantial claims for damage caused by design defects, fire and flooding. Also adept at advising on issues regarding D&O and other forms of professional indemnity."*
